Name: _____

Address: _____

Phone Number: _____ Emergency Phone: _____

Request to proceed with installation of foundation perimeter drain connection at the following address:

APPLICANT ACCEPTS AND AGREES TO THE FOLLOWING CONDITIONS:

- 1) The contractor, company, corporation or private individual (aka: Applicant) requesting this foundation perimeter drain connection authorization must first submit a detailed foundation-to-catch basin connection plan, with elevation data, to the Merrimac Highway Superintendent for review and approval.
- 2) Approval of the proposed foundation perimeter drain connection plan by the Highway Superintendent is further subject to as-built installation inspection before connections and trench are covered.
- 3) In addition to receiving foundation perimeter drain connection authorization, Applicant must obtain the required Street Opening and Trench Permits before commencing with the work.
- 4) Applicant shall hold harmless in perpetuity the Town of Merrimac for damage that may result from street flooding, blocked street drains, or other conditions causing flow restriction or water backup, which may result in damage to the subject property at the above-referenced address.
- 5) Any sidewalk or pavement repairs, tie-in connection or pipe obstruction failures causing damage to the public way, shall be the responsibility of the Applicant and at their expense, he/she is required to take all immediate corrective actions as directed by the Town of Merrimac.
- 6) This connection is available only for new or pre-existing 1+2 Family Dwellings (R4). Not applicable for commercial, industrial or multifamily Use Groups, or projects under subdivision control.
- 7) Applicant shall disclose this agreement to any potential purchaser of the property.
