

The Town of Merrimac, MA Tobacco Use Control

Be it ordained by the Board of Health of the Town of Merrimac, as follows:

Sections 1, 2, 4, 5, 6, 7, 8 of the Board of Health Tobacco Control Regulations are hereby deleted and amended with the following:

A - Statement of Purpose:

Conclusive evidence exists that tobacco smoke causes cancer, respiratory and cardiac diseases, negative birth outcomes, irritation to the eyes, nose, and throat. The harmful effects of tobacco smoke are not confined to smokers, but also cause severe discomfort and illness to nonsmokers. Environmental tobacco smoke (ETS), which includes both exhaled smoke and the side stream smoke from burning tobacco products, causes the death of 53,000 Americans each year (McGinnis JM, Foege W, "Actual Causes of Death in the United States", JAMA 1993 270:2207-2212). The Ninth Report on Carcinogens of the Public Health Service's National Toxicology Program classified secondhand smoke as a known human carcinogen (U.S. DHHS, 2000) and the International Agency for Research on Cancer (IARC) of the World Health Organization also classified secondhand smoke as a known human carcinogen (IARC-WHO, 2002). The Board of Health Town of Merrimac recognizes the right of those who wish to breathe smoke-free air and establishes this regulation to protect and improve the public health and welfare by prohibiting smoking in workplaces.
