ATTENTION WATER AND SEWER USERS

Due to the current state of water supply not only in Merrimac, but the region, we unfortunately will be terminating the discount on the sewer side for filling pools. We already do not allow any discount for sprinkler use. If you choose to fill your pool from your water tap you will pay for both the water and sewer for those gallons. It is recommended that you hire a water truck to fill your pools. This is also in accordance with Department of Environmental Protection and Conservation of our water supply.

Thank you.
